The Asset Management Summit is coming to Melbourne!

IPWEA's International **Asset Management Summit 2026** will bring together leading professionals, decision-makers and innovators from across Australasia to explore the future of asset management. Co-hosted by IPWEA Victoria, this two-day event is designed to address the challenges and opportunities facing our sector as we build sustainable, resilient and technology-driven infrastructure for communities.

Hope to see you there...details and registration [here](#).
