

Did you know Barwon Water is planning to destroy part of Geelong's Heritage listed Barwon River Ovoid Sewer Aqueduct?

You may not have seen it or know where it is. Its address is 42 Leather St, Breakwater. The best view is from the river end of Tanner St.

The Friends of the Aqueduct recognise that Barwon Water's core business is not maintaining heritage listed structures.

The Friends of the Aqueduct believe that the Aqueduct:

- should be managed by Parks Victoria
- should be one of Victoria tourist icons, close to Melbourne's population, on the way to or from the Great Ocean Road.
